# André Montoito

Mobile Engineer (Flutter) & Backend Developer
Mafra, Portugal | +351 964 454 554 | andremontoito@gmail.com | github.com/SuperMoooo | Portfolio

## Education

**Polytechnic Institute of Tomar** — Abrantes, Portugal
*BSc in Computer Science and Artificial Intelligence* — *Sep. 2024 – Expected 2027*

**Polytechnic Institute of Tomar** — Mafra, Portugal
*Higher Professional Technical Course (CTeSP) in Computer Science* — *Oct. 2022 – Jul. 2024*

## Experience

**Mobile Engineer (Flutter), Part-time** — Aug. 2025 – Oct. 2026
*Tempus Tecnologia – LegalTech app for law firms and their clients* — *Portugal*

- Built client–lawyer messaging, VoIP calls, calendar sync and secure document upload
- Defined the front-end architecture and contributed to back-end technical decisions
- Integrated third-party and enterprise APIs; ran code reviews and coordinated tasks across the team

**Mobile Engineer (Flutter), Part-time** — Jan. 2025 – Oct. 2026
*IMR Research and Development – vehicle-management app* — *Abrantes, Portugal*

- Built VIN capture via manual entry, QR code and OCR
- Built vehicle check-in/check-out flows and detailed vehicle data screens
- Worked with the back-end team on secure, stable API integrations

**App Developer → Mobile Engineer (Flutter), Part-time** — Oct. 2024 – Jul. 2025
*Knowledge In Motion* — *Abrantes, Portugal*

- Introduced Flutter and led its adoption as the company's main mobile stack; mentored teammates on architecture
- Built the incubator ecosystem app: maintenance requests with photos, startup directory, news, vehicle and room booking
- Shipped a membership app for a cultural association and an event platform with real-time QR ticket validation
- Built a Python/FastAPI back end for an app project

**Full-Stack Developer Intern** — Jan. 2024 – May 2024
*Dualinfor Hito Innovation* — *Mafra, Portugal*

- Built a process-automation bot and a tool to manage and monitor the company's printer fleet

## Projects

**moarch** | *Dart, pub.dev* — 2026

- Open-source package that scaffolds Flutter projects from shared architecture conventions, with editable templates

**Urban Infrastructure** – **Aveiro Tech Week Hackathon** | *Web, API, ML* — 2026

- Web app that detects traffic signs, street lighting and waste containers in Street View images and street videos, then geolocates and maps them
- Built the API in a team with a Web Developer and an ML engineer

**Gesti** & **Compras** | *Flutter, Firebase, Riverpod* — 2024 – 2025

- Two apps live on Google Play: a productivity organiser and real-time shared shopping lists for families

## Technical Skills

**Mobile**: Flutter, Dart (Bloc, Riverpod, Provider), Firebase, React Native, FVM
**Backend**: Python, FastAPI, Node.js, REST APIs, PostgreSQL, MySQL, Docker
**Web**: Next.js, React, TypeScript, Redux Toolkit, Tailwind CSS
**Practices & Tools**: Clean Architecture, MVVM, CI/CD, Git/GitHub, Figma
**Learning**: Kotlin, Jetpack Compose, machine learning
**Languages**: Portuguese (native), English (professional, B2–C1), Spanish (basic)
