WORK EXPERIENCE

Tempus Tecnologia

Country: Portugal

[01/08/2025 - Current]

Mobile Engineer · Flutter

Responsibilities & Impact:

End-to-end development, maintenance, and deployment of high-performance Android, iOS, and Huawei mobile applications.

Architecting front-end technical frameworks and driving strategic back-end decision-making.

Evaluating technical alternatives and delivering scalable, high-efficiency solutions aligned with stakeholder objectives.

Technical leadership and team coordination, ensuring seamless implementation and rigorous quality assurance.

Thriving in high-velocity environments while upholding elite coding standards and product stability.

Key Projects:

LegalTech Solution for Law Firms:

Streamlined access to complex legal proceedings.

Enhanced solicitor-client engagement via integrated messaging, VoIP, and email ecosystems.

Optimized scheduling through advanced calendar synchronization.

Robust document management and secure upload workflows.

Seamless integration with third-party services and enterprise APIs.

IMR Research and Development

City: Abrantes | **Country:** Portugal

[01/01/2025 - Current]

Mobile Engineer · Flutter

Project Spotlight: Revolutionizing Vehicle Management

Seamless Vehicle Identification: Advanced VIN reading capabilities via manual entry, QR Code, and high-precision OCR.

Optimized Workflow: Efficient vehicle check-in/check-out processes to keep operations moving.

Data-Driven Insights: Comprehensive, detailed vehicle data displays for informed decision-making.

Robust Infrastructure: Strong back-end collaboration ensuring secure, stable, and scalable integration.

Driving innovation in the automotive tech space!

Knowledge In Motion

City: Abrantes | **Country:** Portugal

[01/03/2025 - 31/07/2025] **Mobile Engineer · Flutter**

Spearheaded the strategic adoption of Flutter as our core mobile technology stack

Driving innovation through proactive technology leadership

Empowering the team through dedicated training and mentorship

Serving as the internal subject matter expert for best practices, scalable architecture, and complex problem-solving

Key Project Highlight:

Incubator Ecosystem App:

Streamlined maintenance workflows with integrated image reporting

Optimized management systems for incubated startups

Seamless vehicle and facility reservation modules

Enhanced internal communication and engagement

[02/10/2024 - 31/07/2025] **Programador de aplicações**

Responsibilities:

Spearheaded the end-to-end development, configuration, maintenance, and deployment of high-impact mobile applications across Android, iOS, and Huawei ecosystems:

Brazilian Cultural Association App: Revolutionized annual membership management, news delivery, and community engagement features.

Event Management Solution: Engineered a seamless QR code validation system with real-time data visualization for scans and sales performance.

Collaborated cross-functionally with back-end teams to architect secure, scalable, and robust integrations.

Tech Stack:

- C# | MAUI | Cordova
- Dart | Flutter
- PHP | Laravel
- HTML5 & CSS3

Dualinfor Hito Innovation, Lda

City: Mafra | **Country:** Portugal

[08/01/2024 - 07/05/2024] **Estagiário - FullStack developer**

Responsibilities

Spearheaded the architectural design and end-to-end implementation of mission-critical codebases to streamline data management and real-time monitoring for the company's entire printer fleet.

Spearheading the end-to-end Fullstack development of a automation bot to revolutionize process efficiency.

Algoritmo

City: Mafra | **Country:** Portugal

[07/02/2022 - 02/04/2022] **Estagiário**

Key Responsibilities:

Spearheading the end-to-end management and optimization of high-impact corporate web ecosystems via WordPress.

CREATIVE WORKS

[01/03/2026 - Current]

moarch

Built first as a helper for me and the people I work with — it encodes the conventions *our* projects share. Anyone is welcome to it: if the conventions match yours, use it as-is; if they *almost* do, clone it and make them yours — every template is a plain Dart string meant to be edited.

Link: https://pub.dev/packages/moarch

[01/03/2025 - 01/07/2025]

Gesti

Tech: Flutter + Firebase + Riverpod

O Gesti é um aplicativo de produtividade criado para quem quer manter a vida pessoal, profissional e escolar organizada sem complicações.

Link: https://play.google.com/store/apps/details?id=com.supermo.gesti&hl=en_US

[31/08/2024 - 25/12/2024] **Compras**

Tech: Flutter + Firebase

Uma app para partilha de listas de compras entre pessoas do mesmo grupo ou família. Os utilizadores podem criar uma conta, formar um grupo ou juntar-se a um grupo existente. Dentro do grupo, podem criar e atualizar listas de compras em tempo real, adicionando produtos e quantidades. Todos os membros do grupo têm acesso às listas e podem partilhá-las, tornando o processo de compras mais organizado e eficiente.

[12/08/2024 - 03/09/2024] **PokeGames**

Tech: Next.js, Tailwind, TypeScript, Redux TK, API

Criação de 3 jogos usando informação de uma API.

Jogos:
Advinha o Pokémon através de tentativa e erro.
Advinha o Pokémon através de uma imagem em blur.
Se o próximo Pokémon é mais forte ou mais fraco.

Link: poke-games-nine.vercel.app

[29/06/2024 - 05/07/2024] **Comics Characters Info**

Tech: Next.js, Tailwind, API, Redux TK, Material UI

Informação de vários personagens de comics através de data de uma API

Link: superheroesinfo.vercel.app

[17/05/2024 - 03/06/2024] **Mobile App: MoT - Tarefas, Notas, Aniversários (com notificações)**

Tech: React Native + Redux TK

Desenvolvimento de uma aplicação mobile para criar notas, tarefas e lembretes com notificação de aniversário.

Links: https://github.com/SuperMoooo/MoT | https://expo.dev/artifacts/eas/8X338QNcAUx3SXnfFfXoA8.apk

[06/03/2024 - 17/05/2024] **Criação de um jogo para disciplina do curso "Bipo"**

Desenvolvimento de jogo no âmbito da disciplina de desenvolvimento de jogos do **Curso Técnico Superior Profissional de Informática**.

Link: https://supermoooo.itch.io/bipo

[20/12/2023 - 05/01/2024] **Criação de Website para cliente**

Tech: HTML, CSS, JavaScript

Criação de website para empresa de cliente.

Link: https://kubicdeal.pt/

[10/12/2023 - 15/12/2023] **BlackJack Game**

Tech: HTML, CSS, JavaScript

Jogo feito de "prenda" de aniversário para um amigo que adora blackjack.

Nota: Dinheiro infinito, sem split cards

Link: supermoooo.github.io/blackJackGame/

[14/09/2021 - 07/07/2022] **Criação de um jogo e sua identidade visual "Slime Game"**

Criação de um jogo para computador e telemóvel (Android) para a Prova de Aptidão Profissional da escola com nota final 18.
